

SMALL BUSINESS IT ROADMAP CHECKLIST

3-Year Plan

How to Use

1. Takes 20–30 minutes
2. Completed by IT Director, Network Admin, or CIO
3. Check each box that applies.
4. Count the total number of checked items.
5. Identify outage and security exposure

1

Define IT Purpose & Business Goals

- ☐ Determine why your business needs IT improvements
- ☐ List business goals that technology must support
- ☐ Confirm how new IT infrastructure supports each goal
- ☐ Align IT strategy with 3-year business growth plan

2

Audit Current Infrastructure

- ☐ Inventory all hardware (servers, PCs, devices)
- ☐ Inventory software, licenses, and subscriptions
- ☐ Document performance issues and system age
- ☐ Identify cybersecurity gaps
- ☐ Perform SWOT analysis

3

Budget & Prioritization

- ☐ Create a list of desired technology initiatives
- ☐ Estimate costs for each initiative
- ☐ Rank projects by business impact
- ☐ Decide deployment timeline —————
 - Now
 - 12 Months
 - 36 Months

4

Deployment & Migration Planning

- ☐ Build step-by-step deployment plan
- ☐ Schedule implementation during low-impact hours
- ☐ Create secure data migration plan
- ☐ Develop rollback strategy

5 Testing & Validation

- ☐ Test all new systems before launch
- ☐ Engage key stakeholders in testing
- ☐ Document and fix issues
- ☐ Prepare monitoring checklist

6 Monitoring & Optimization

- ☐ Implement ongoing performance monitoring
- ☐ Track productivity improvements
- ☐ Identify new risks or bottlenecks
- ☐ Adjust roadmap based on findings

7 Quarterly Review & Updates

- ☐ Schedule quarterly IT roadmap reviews
- ☐ Update priorities based on business changes
- ☐ Adjust budget forecasts
- ☐ Re-align roadmap with growth objectives

Scoring Model

- Count the total number of checked items
- Total Possible Score: 29
- 0–10 → High Risk (Reactive and exposed)
- 11–20 → Moderate Risk (Operational but vulnerable)
- 21–29 → Controlled / Strategic (Proactively managed)

Immediate Red Flags

- No IT goals defined
- Infrastructure inventory incomplete
- No budget or project ranking
- Deployment plan missing
- Testing not performed
- Monitoring not implemented
- Quarterly review skipped

Next Step

If red flags exist, review and update roadmap.

Schedule a structured IT Risk & Cost Alignment Assessment
