- High ratings
- Pricing fit our budget
- Company values aligned

How many teammates from Corporate Technologies were assigned to this project?

2-5 Employees

Describe the scope of work in detail. Please include a summary of key deliverables.

Corp Tech came in, reviewed what we had going on with our network/wiring/internet/PMS/etc., made recommendations on how to improve it, implemented the plan and are now in charge of keeping it running smoothly.

The Outcome

What were the measurable outcomes from the project that demonstrate progress or success?

Our office runs much more smoothly now that the network communicates properly between all the work stations and the server, we have not experienced any downtime with computers since bringing them on as our IT manager.

Describe their project management. Did they deliver items on time? How did they respond to your needs?

Corporate Technologies

They were well informed about what we needed, punctual about getting it implemented, and very open to listening to our questions, concerns, requests as the project went on/goes on.

What was your primary form of communication with Corporate Technologies?

- In-Person Meeting
- Email or Messaging App

What did you find most impressive or unique about this company?

Their ability to make everything run as one cohesive unit and maintain a customized plan for our needs was impressive. The customer service is speedy and friendly.

Are there any areas for improvement or something Corporate Technologies could have done differently?

Nothing that comes to mind right now.
