

Managed IT Services for Telecommunications Installation Co

PROJECT DETAILS

 IT Managed Services

 Oct. 2025 - Oct. 2025

 Confidential

 *"They worked on the solutions right away and solved both problems."*

PROJECT SUMMARY

Corporate Technologies provided managed IT services for a telecommunications installation company. They managed the client's servers and workstations and upgraded a workstation to Windows 11.

PROJECT FEEDBACK

Corporate Technologies successfully completed the project, and the client was pleased with the results. The team had a quick response time and works with familiar technicians. They completed projects on time and within budget, and the client was happy with the partnership.

The Client

Please describe your company and position.

I am the Consulting & Design Supervisor of K & W Underground Inc.

Describe what your company does in a single sentence.

K & W Underground provides contract telecomm installation services to Cities, Counties, CATV, phone and internet providers.

The Challenge

What specific goals or objectives did you hire Corporate Technologies to accomplish?

- They are our IT company of choice. They manage all our IT needs very effectively. Todays project was to free up space and upgrade a laptop to Windows 11.
- Free up HDD space.
- INstlal Windows 11

CLIENT RATING

5.0

Overall Score

Quality: 5.0

Schedule: 5.0

Cost: 5.0

Would Refer: 5.0

The Approach

How did you find Corporate Technologies?

Online Search

Why did you select Corporate Technologies over others?

- High ratings
- Close to my geographic location
- Pricing fit our budget
- Company values aligned

How many teammates from Corporate Technologies were assigned to this project?

2-5 Employees

Describe the scope of work in detail. Please include a summary of key deliverables.

Corporate Tech is our managed IT partner. They provide us with everything from Server and work station management, as well as manage softwares like Office 365, system backups and provide us with several exceptional tools to keep our network up, running and safe. They do things like identify and upgrade our workstations to Windows 11. They are an invaluable service that frankly, we couldn't do without in today's online world. Today they had to remove old, unused files from a work station and install Windows 11. Neither one of these items progressed easily but the techs were on top of it and had the problems solved right away.

The Outcome

What were the measurable outcomes from the project that demonstrate progress or success?

Corporate Technologies

Free space was obtained on the laptop and Windows 11 was successfully installed with no fuss on my side. Very smooth project, as they usually are.

Describe their project management. Did they deliver items on time? How did they respond to your needs?

After the initial appointment scheduled to upgrade the machine, and the problems were found, they worked on the solutions right away and solved both problems.

What was your primary form of communication with Corporate Technologies?

Virtual Meeting

What did you find most impressive or unique about this company?

They resoned quickly with techs we are familiar with and complete projects on time, and within budget if there is one.

Are there any areas for improvement or something Corporate Technologies could have done differently?

Not on this project.
